Subject: Hearing on Pesticide Bills 3/26

Dear Representatives Gallagher, Witt and Clem:

I live in Nehalem, an area surrounded by the state forest. My family and neighbors are subject to the drift of aerial pesticide spraying as well as pesticide run off in our water. I am in support of SB 613 which will bring our standards of protection up to that required in Washington and California.

Tomorrow you will be hearing testimony on a variety of bills that would undercut the protections offered by SB613, specifically .

I urge you to reject:

HB 3428,
HB 3429 and
HB 3430.

We need to protect our waterways, our children, and our neighborhoods from the effects of aerial spraying!!
And we need to reinstate our system for reporting pesticide use:

I urge you to support

HB 3482
HB 2589 and
HB 3123

Thank you,

Viviane Tallman
