Subject: Please Support a Ban of Aerial Pesticide Application & Neonicotinoids

Dear Committee Administrator Gallagher:

I am in support of the following bills which have a hearing this week in the House Committee on Agriculture and Natural Resources:

HB 3123: Ban the application of aerial pesticides.

HB 3482: Establish reporting requirements for government and commercial application of pesticides.

HB 2589: Ban the use of neonicotinoid pesticides in Oregon.

Please urge our Representatives to consider these bills in support of human quality of life and wildlife habitat.

Thank You,

Deborah Noble
