Subject: Please support SB 477 Coal to Clean Energy

I am writing to urge support for SB 477 which will transition Oregon from coal powered electricity generated in other states and transmitted to the Oregon grid to clean renewable energy. Oregon residents should not be paying to support dirty coal when the resources and technology exist to move to renewable energy. SB 477 will provide the incentive for Oregon electric utilities to invest in clean renewable energy and energy efficiency.

Thank you,

Laurie Dougherty
