Committee on Energy and the Environment

March 26, 2015

Dear Chair Vega Pedersen and Committee Members,

Please find attached the Oregon Department of Energy's RPS Threshold Values for Oregon Utilities last updated September 20 2012 for the calendar year 2011. When my office called and asked if there was a more current report posted they were told that the latest report was for 2012 and that it would be sent.

At 12:30 a report was sent to my office for 2013 Sales, the document was created today.

It would appear that the average citizen looking for these reports would not be satisfied with what is publicly available.

Gail Hildreth Whitsett
