Subject: HB 3123

To the House Committee on Agriculture and Natural Resources,

Please vote to support HB 3123, and help end the needless suffering experienced by Oregonians who live within the areas impacted by aerial spraying of pesticides. As it is, Oregonians have no warning of when or where pesticide spraying will occur and what pesticides will be used. We have no voice, no recourse, and no place to turn for protection, yet we are the ones who suffer the ill effects of this practice. This bill puts sensible controls on aerial pesticide spraying practices; controls that are more in alignment with practices used by neighboring states and on our national forest lands.

Please vote to approve this measure and help protect Oregonians from the dangerous and indiscriminate health, economic and environmental consequences of aerial pesticide spraying.

Sincerely,
Cathy Bellavita
Cottage Grove
