

Dear Chairman Proanski and Members of Committee,

I can't attend the hearing of SB941 because I'll be caring for my three grandsons. Background Checks are not an intrusion into a person's desire to purchase a gun, rather a means of keeping guns from the mentally ill and/or wrongdoers. Safety benefits everyone. Please support SB941. The gun lobby has way too much power in suppressing common sense gun safety. I have power in protecting my grandsons!
