Subject: **SB 824**

To the Committee: I am writing to urge passage of SB 824, the Clean Diesel bill. It is unconscionable that dangerous equipment, unusable in neighboring states are being dumped in Oregon and allowed to pollute our air. My husband was asthmatic and one of our children.....I know first hand what they suffered and still do.....unseen are the cancer deaths that are not being counted that this equipment causes.

It is most urgent for you to act NOW. Thanks, Jere Grimm
