

I am writing in OPPOSITION of any new gun registration bills. I am a law abiding citizen, and it is NOT going to help keep the guns out of criminals hands, by instituting new rules/regulations. I think NORMAL, Law-ABIDING citizens should have every right to own a firearm. I grew up around guns of all sorts-my dad's old .22 pistol, passed down from grandfather to father to son; the shotgun and rifle he went hunting with every year, to provide for his family-these were all stored carefully and respectfully. Yet, we knew not to even go in our parents room, where they were stored. We were raised around hunting, fishing, camping, the great outdoors. We learned a respect for life, and a respect for rules and laws. Because of being raised the way I was, and because of my husband training with me, with all our guns, I will always feel safe in my home. Safe from intruders, safe from crazy ex-boyfriends, safe from the tyranny of oppression by our own government....safe. Period. NOTHING can take that from me, except the ridiculous rules the government is trying to impose on law-abiding, decent citizens. Do NOT tamper with our 2nd amendment rights. WE voted you in, WE can vote you out. Thank you for your time.
