

Please don't pass a bill that infringes on our constitutional 2nd amendment right!!!!
SB-941 is an insult to free people. Under the U. S. Constitution citizens don't have to ask any government for permission to exercise their rights. No crime or shooting will be prevented with this bill as only honest people will comply. The bad guys will do what they always do—ignore the law. You know this as well as I do. SB-941 just sets the stage for the gun grabbers next step. REGISTRATION. After that they will know where the guns are and banning and confiscation can begin, as has been done already in N.Y. , Ca, and elsewhere. I urge you to protect the Second Amendment.
