

To the Committee: I am writing in support of HB 3310 to help clean up air pollution from old diesel trucks. It's unconscionable that equipment, unusable in neighboring states, are usable here. Public health & the protection of those with already existing lung disease take the brunt of the consequences.....I raised an asthmatic child here in Portland and understand how they suffer- and she still suffers. I urge your committee to act favorably on this bill NOW, Thank you, Jere Grimm
