

Dear Committee Administrator,

This Draconian bill most certainly infringes on 2nd Amendment rights, in defiance of our Constitution. However well-intended it may be, the net effects will be to deny Constitutional rights for non-dangerous people whose only crime-- if that-- may have been to engage in a physical scuffle. To truly do justice, the wording of SB 525 should be amended to ensure that only REPEAT violent criminals are so denied. An *isolated* physical altercation does not make a person dangerous.

Sincerely,
Bobbie Piety
