

SB 470

I just wanted to write you to express my concern about we classified employees not being able to receive unemployment benefits. I believe that it is completely unfair to exclude us from receiving these benefits. We deserve to have these benefits as we are essentially performing the same duties as certified staff despite the non-certified status we hold. To deny us these same benefits is purely unjust considering that we already make much less money than certified staff.

Please help us in this fight for fairness. I thank you wholeheartedly for your consideration. Have a wonderful day, every day!
