

Greetings,

I am writing to you to express how damaging it would be if a Constitutional Convention were held. There would be nothing to stop special interests from all sides, from throwing out the Constitution all together and coming up with a new document.

The US Constitution is vital for us to stay a free people. The Constitution can be amended to solve an issue, but a Convention, would only open the flood gates to the loss of our Republic.

Vote NO to a Constitutional Convention!!!

Thank You,
Erik Ernst
