## *Honorable Senate Judiciary Committee, State of Oregon 2015*

*SB 525 expands the definition of "domestic violence" far beyond reasonable. It is true that not everyone should own a firearm but those of us who make it a daily habit to obey the law have seen so many needless additions to law that punish many of us as innocent bystanders. **Oregon has enough gun laws.***

*Let's first enforce the ones we have. You will notice an immediate improvement.*

*Thank you for the time in listening. We elected you because we had faith that you would do what is effective and prudent. **SB525** is neither.*
