

Dear Senator Handzel and Judiciary Committee:

Senate Bill 525 (SB 525) expands the definition of "domestic violence" beyond what is required. Please help make the definition more reasonable by supporting the dash one and dash three amendments.

Judges now have almost unlimited discretion to remove the right to possess firearms from people who have been accused, but not necessarily convicted of, a crime covered by SB 525. As I understand it, the dash one and dash three amendments would correct this by allowing the accused person to seek due process.

If you decide to move SB 525 please support the dash one and dash three amendments.

Yours truly,

Lloyd Fenwick
