

Senator Hass and members of the Senate Judiciary Committee:

I encourage you to vote against SB525 unless it includes both amendment -3 and -1.

The bill is of much more harm than good without those two amendments.

Without those amendments, if one were to get into a shoving match with his obnoxious brother in law, now he would be treated like a wife beater and a judge will have unlimited discretion to forbid him from having firearms. Is that what is wanted?!? I don't think so.

I will be watching the vote. Thank you for serving.
