

Dear Judiciary Committee,

SB 525 expands the definition of "domestic violence" well beyond what common sense would dictate. This is dangerous, counterproductive and needs to be removed via the "dash 3" amendment.

Right now, judges have virtually unlimited discretion to take away firearm's rights from people who have not been accused of, let alone convicted of, any crime. The proposed "dash 1" amendment would correct this often abused activity and fall inline with Section One of the Fourteenth Amendment to the US Constitution.

I urge you, please support this amendment if you move this bill forward.

Thank you,

Sean Harvey
Portland, OR
