

Good afternoon,

I understand as lawmakers, you must make laws that keep the citizenry safe. However, everything contained within SB941 has no hope of doing anything to deter or curb crime. This law will only affect those who obey the law, i.e. law abiding gun owners. For you to entertain the thought that making new laws to control the lawless, would make me question the sanity of the votes cast for your election.

The fact is that criminals will circumvent ANY law that you create in order to obtain the tools to commit their crimes with. All you would accomplish with this new bill, would be to flood the law abiding citizens of this state with more red tape, and you would accomplish NOTHING. I understand most of Oregon's government is made up of career politicians who support the liberal agenda. I also understand that following the United States Constitution is a secondary concern. However, I urge you to read the 2nd Amendment, and pay particular attention to "Shall not be infringed".

Do your job. Follow the Constitution. Honor the law by making laws that make sense, instead of flooding us with more laws that do nothing but waste taxpayer funds and infringe on our Constitutional rights.

Thank you,
Erick H Browning
Law abiding citizen, and voter
