

I Absolutely DO NOT support this communist modeled law that you crooked half brained valley scum are trying to unlawfully push through. This is boarder line UNCONSTITUTIONAL and just flat out wrong, everyone sees that this is just another way for the state to monitor or spy if you will, on us law abiding citizens. Go pass these laws in Russia or California where they belong. Note the fact that if laws such as this keep being blindly pushed through there will be uprising you can only push a nation so far before we the people snap and revolt. history can't lie and continuously repeats its self.
