

I am vehemently a opposed to Senate Bill 941. This bill does nothing for safety and only penalizes honest citizens. It only punishes law-abiding citizens who use their guns responsibly. Criminals by definition do not follow the law, all this bill does is put burdens on law-abiding citizens. I'm very disappointed to hear that press releases say there has been little public input on this subject. I know of many many people who have written in opposition of this bill. So what is happening? Are you ignoring constituents voices to push your own agendas? This bill is simply a wolf in sheep's clothing. Be honest and call it what you want it to be; is a gun-control Bill wrapped up in safety of citizens language. This bill should never be fast tracked, give the public time to comment on it.
