

Jeff:

The United States Constitution, 2<sup>nd</sup> Amendment states:

A well-regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.

Start enforcing the gun laws on the books and stop trying to erode what is given to me as a citizen in the Bill of Rights. In other words, do your job by defending the Constitution. An oath taken by all politicians when they volunteer for office.

Thank you,  
Andy
