

I opposed SB941 because it will do nothing to stop criminals from acquiring guns. Guns can be stolen and exchanged without anyone knowing about it. Those with criminal intent do not use the legal system, therefore, the only members of society that will be affected are law abiding citizens. It will only cause undue strain upon law-abiding citizens and interfere with our rights spelled out in the US Constitution.

If someone wants to commit violent crimes or suicide, they will do so regardless of guns. Guns are not the only way violence is committed.

This SB941 should not pass.
