

Senate committee members,

This bill is unconstitutional and just plain silly. If my friend and I go out to the woods to target shoot, and I want to try out his gun or vise versa, we need to go to a gun store and have background check done first?! Senator Prozanski knows the public doesn't want this bill so he and his partners in crime are ramming it through in 6 days before the public finds out. Are you in office to serve the interests of the public or strip them of their inalienable rights?

Frustrated,  
Trevor Stellrecht
