

I will first say that anyone who votes for this bill should be taken behind the woodshed for some instruction. I would also suggest that they genuinely become familiar with the current laws as well as with the lies told by all those who testify for it. They know not what they do. The only benefit from this bill is a show of power by stroking the egos of those who think they should be ruling the world. All of it amounts to government bullying and intimidation of law abiding citizens but when you increase the laws you only make more criminals and free the current ones up to do more dastardly deeds. The real criminals are those who are trying to infringe on constitutional rights and more so our God given rights. Thank you....Dale Casey, Medford, Or.
