

SB941 does the people of Oregon no good... Period...

I oppose any more laws against law abiding citizens and their gun rights.

If there were more jobs available maybe the criminals would make a more honest living.. Common sense.

There will always be felons, but if the penalties to them and them alone were more fierce and life changing maybe the other soon to be felons would see that is not the right path to travel and find a job (if they can find one, if not a place where they too can go and get help instead of breaking the law) to make an honest living..

The Senate needs to stop this non sense and do something constructive with their time instead of attacking the very people who pay taxes and in essence make their payroll.

COMMON SENSE!
