

Dear Oregon Legislators

Please stop SB 941, the Universal Background Check Bill. (we already have background checks)

The right to the free trade of legally owned possessions should be enough to stop you from considering “big brother” gaining more control of our 2nd Amendment rights. With the continued invasion of the Government, at every level, into our Constitutional Rights, our only savior is our right to effectively protect ourselves and to maintain the condition whereby the government and the bad guys know we can and will protect ourselves against evil, tyranny or a Government gone wild. Passing this legislation will do nothing more than make law-abiding citizens law breakers and further the divide between our government and our good people. Law-abiding citizens don’t need the government to tell us who we should or should not transfer guns to. That’s part of being a “law-abiding citizen”.

Controlling the exchange of legal guns is one more step to controlling our freedom.

NEVER FORGET; WHEN GUNS ARE OUTLAWED, ONLY OUTLAWS WILL HAVE GUNS.
