Mr. Rhoades,

This is in regard to SB 941. Sir, this proposed bill is lacking in common sense in that it will do nothing to prevent the acquisition of a firearm by someone that would otherwise be denied. Moreover, it places an undue burden on law abiding citizens that do follow the letter of the law. Additionally, it will place an financial burden on those agencies that are required to do the back checks, as no provision for funding this proposed law has been made.

It is never wise to make a rule (law in this case) that is based on emotion and is unenforceable. Moreover, SB 941 infringes on our Second Amendment rights and in large lacks the support of a majority of the County Sheriffs within the State.

The sensible thing would be to leave this bill in committee and refer it for further study in a bipartisan manner rather than the Democrats shoving this down the throats of the State's citizenry.

Respectfully submitted,

Michael S. Croy
