

Opposition to Senate Bill 941.

My name is Yong Burns, I am a naturalized United States citizen. I originate from South Korea, where common citizens are unable to have guns. I have lived under curfews and military law. I was afraid to touch a gun or ammunition.

Now I have been trained to use handguns and rifles. I can now use them safely and accurately, and feel much safer in my home.

I do not understand why you now want additional requirements on me.

When my husband dies why will I have to go through these background checks or our sons, one who is a federal law enforcement officer and another a partner in a law firm. This will be a sad time with any other legal responsibilities to attend to. Why do you want to burden me with more?

Yong N Burns
Cornelius Oregon.
