

Jeff Rhoades, Judiciary Committee

Sir:

As a retired 31 year veteran of law enforcement I would urge members of the Judiciary Committee to table this bill as written. At this time, I believe there to be little incentive for law enforcement agencies to assign personnel enforcement responsibilities for a new law that will only add paperwork, time and cost for all parties affected by its implementation. Please, do not make another law that does little if anything to lessen the current issues regarding the sale and ownership of firearms in Oregon. This time, lets not leap before we look!

Thank you,
