The following is my testimony for the 4/2/15 hearing on House Bills 3089, 3090, 3096 and 3269.

Please vote yes and advance these bills out of the House Committee on Agriculture and Natural Resources.

Josephine County is one of our richest resources for minerals of national importance. We need your help for us and the other mineralized counties in Oregon. Please advance these bills on minerals to both help the stressed economies of our resource counties and also to help our nation in these times of global uncertainties and conflicts. We cannot depend on China and Russia and Africa as good sources for important minerals for the United States.

Thank you for this opportunity to testify.
