

How fitting to be discussing this insane anti-law abiding gun owner bill on April 1st.

What part of "...shall not be infringed," do you people not understand? Has anyone in the Oregon government even read the Constitution?

The bill being discussed today is taking a right and making it into a privilege.

This is a virtual declaration of war on the law abiding citizens of the state of Oregon.

But obviously, no one in the legislature cares about the law abiding citizens.
