

Please vote no on SB 941. It will not stop crime and will make me criminal if I borrow or loan a gun to or from a trusted hunting partner. I purchase several firearms every year from gun dealers at gun shows which involve a back ground check for each purchase. I would like the state of Oregon to have a firearm purchase card with a back ground check like I do for my concealed handgun license that I renew the same way so all I have to do is show my Oregon firearm purchase card when I want to make a firearm purchase. If I can be trusted to carry a loaded concealed handgun I should be trusted to make a firearm purchase. More regulations of SB 941 will not make the streets safer.

Thank You
