

I would like it to be known that myself and many other law bidding citizens find senate bill 941 to be a bill that will not reduce crime but, rather make criminals out of law bidding citizens. The fact that it is being rushed through without much of a chance for public feedback is offensive in itself. The bill will not reduce crime; it will not fix a broken system and is a waste of time and money. You should be considering the laws that are in place and reinforcing those laws instead of creating laws that will punish and imprison law bidding gun owners. It is a law that will fail its core mission of reducing crime and increase the number of people who cannot own guns because they broke this law unknowingly who otherwise would have been law bidding citizens prior to this law. This bill should be shut down in its tracks!!

Sincerely,

Law Bidding Citizen

Harry McNall
