Subject: SB 941 Opposition Testimony

To Whom It May Concern:

I am in total opposition SB 941 as it is unnecessary and is a further attenuation of my rights, as a resident of the State of Oregon. This appears to be a solution in search of a problem! The five year requirement for individuals, to keep track of information is a joke! It is difficult enough to keep all your tax information straight now you want to add on another layer of government mandated forms. Why is it that our elected representatives' feel compelled to create criminals out of honest law abiding citizens? The fact that this is trying to be approved, through the machinations of an emergency provision, is truly laughable. Where is the public threat for such an unprecedented over reach! The elected legislators should follow the doctors' oath, "Do no harm!"

I seriously urge the Oregon State legislators to not approve this piece of legislation as it is one more example of the State of Oregon trying to impose unjust laws on the generally law abiding citizens!
