

I am adamantly opposed to the Oregon Legislature wasting its time on such poorly thought out legislation as SB 941. Not only will a new law such as this be impossible to enforce without also requiring every law abiding gun owner to register in some fashion his/her gun, but I see no way that it will accomplish anything that is close to what it's supposed intentions are. Please act responsibly and oppose this nonsense legislation. I know you have heard all of this before and I can see how certain representatives are turning their heads from the people they are suppose to represent by watching the testimonies on Wednesday, but rushing a bad law through without giving **ALL** the people a fair and equal chance to voice their opinion or better yet, vote on the bill, is just plain wrong and bad politics.

Sincerely,

Russ Minten
