

Dear Mr. Rhoades and the Oregon Senate,

It is my opinion that no Bill should be passed into law that has no chance of achieving its avowed goal and will only hurt honest citizens of Oregon.

No bill should be fast tracked unless there is truly an emergency, which is clearly not the case here.

This is obviously an attack on gun owners via gun registrations, unnecessary costs and time in doing personal and legal transactions and a waste of valuable State resources.

Finally, criminals will laugh at it and pay no attention; gang members will do the same. It will never prevent a suicide. Of all the widely publicized shootings, this Bill would not have stopped any of them.

I would urge the Legislature to instead pursue stiffer penalties for gun violence ... and leave honest people alone.

Sincerely, Pat Cassidy
