

Please do not let Senate Bill 941 be voted into law. I am a lawful firearm owner and I do not see where this bill will help keep firearms out of criminal hands. Firearms are smuggled the same way illegal drugs are. If your intent is to keep the criminals from obtaining firearms maybe you should start by curtailing the gang activity along the I-5 corridor. I am not a big fan of any law that limits my rights, especially if it keeps me from passing my firearm to my friend or spouse to use at a firing range or hunting. Background checks do nothing to prevent mentally ill people from obtaining firearms because of the HIPAA law on disclosure of a person's medical history. Until this issue is addressed background checks to keep firearms out of mentally ill people's hands is a mute point! Thank you for your time.
