

I am a Marine Veteran and the Tillamook County Rural Veteran's advocate. This legislature is a bold and direct circumvention of the 2nd amendment rights of law abiding American Citizens and there is no logical or legal justification for it. The Liberal agenda must be stopped. When you disarm law abiding citizens or prevent them from arming themselves you empower criminals. Do you think legislature is something that criminals will follow? Criminals are criminals because they commit crimes which means they as a rule do not follow the law. Why are there constant attacks on the rights of the people by this Oregon state government? Keep in mind that should this pass, it would be in direct violation of the 2nd amendment and if you think the citizens of Oregon are simply going to lay down their arms or submit to the outlandish legislature you are crazy! Most of your officers will not violate the rights of citizen the Sheriffs are not on board nor are your military personnel. Any officer who enforces is also violating a citizens rights. This is a powder keg and passing this is a kin to lighting the fuse.
