

Oregon Senate,

Please note that as documented by the NSSF,(National Shooting Sports Foundation), crime has dropped significantly in the USA as gun purchases have continued to increase. Please stop trying to curb gun violence by imposing more silly laws on our polulation that only infringe upon our second ammendment rights. Bad people with ill intent will ALWAYS find a way to get a gun...whether legally or illegally.

And trying to rush this bill through without giving folks time to react is very under-handed to say the least.

Sincerely,

Michael Johnson
