

Sir,

I respectfully submit that criminalizing law abiding citizens will not deter gun crimes. Adolph Hitler was a big proponent of gun control too. Enforce the laws already on the books in Oregon. With little money available to law enforcement, only legal gun owners can protect themselves. Why, other than to make yourselves feel better, are you attempting to criminalize law abiding citizens? Where is the mental health disclosure bill? Why isn't that a priority instead of the wholesale removal of our 2nd amendment rights?

Yours very sincerely,

John Gross
