

Please keep in mind Mayor Charlie Hails testimony: This bill will prevent 14-16 yr old gang members from getting a handgun, also convicted felons? Why didn't anyone point out to him that there are already laws preventing these two groups from legally owning any kind of gun. This bill will only turn lawful citizens into criminals and or cause undue, unreasonable rules on, said citizens. Please consider your actions carefully & keep in mind all the county sheriff's that have said they Will Not enforce this law. At last count I believe nearly half or more county sheriff's have stated they will not enforce this law. You are supposed to represent the people of Oregon, not to impose your personal views on the people of Oregon. I know there is an emergency attached to this bill so the people of Oregon can be left out of the process. You are not our masters, you need to remember that. Keep this one last thing in mind, there is a 2nd amendment in the constitution that says our rights shall not be infringed upon. Regards James Hayes
