

Here we go again with more useless gun control laws started by do-gooder politicians with nothing better to do that take people's civil rights. More background checks does not make you safer. There is no such thing as safe in this world, just watch the evening news. Just because California has this law doesn't mean Oregon needs this law. Do not Californacate Oregon! California is known as the communist state; it's called Commifornia. Why do you think Oregon of full of Californians, to get away from high taxes and stupid laws. We don't need another gun background check law! Make more stringent laws on criminals that use a gun in a crime. **We need to keep Oregon free and get rid of useless laws that do nothing but hinder the people of Oregon. No on Senate Bill 941!**

Thank you!
