

Dear Members of the Health Care Committee:

I will be testifying in support of HB 2875 as a pharmacist and independent pharmacy owner from Eastern Oregon. I wanted to attach an article that helps explain the transparency issue that results in PBM's increasing the cost of health care.

The title of the article did not transfer over in the attachment. It is "Painful Prescription: Pharmacy Benefit Managers Make out Better Than Their Customers" from Fortune Magazine by Katherine Eban posted October 23, 2013

Sincerely,

Ann Murray R.Ph.  
Murray Drug Inc.  
Heppner and Condon Oregon
