

I hope you understand, really understand , that a large majority of Democrats in Oregon are gun owners that do not support this bill. Even law enforcement says it won't do a single thing to stop crime with guns. You don't get it and never will.

LL

I and my family, friends and people I personally know from both sides of the isle do not support SB941. We have bent and twisted enough! No new gun laws. Enforce the ones on the books already and make the punishment for gun crimes strict and so fearful people not dare commit a crime with a firearm. The law proposed only hurts law abiding citizens and does nothing to the Law breakers....
Do the right thing..
