

Good morning, Representatives of the People!

We the people!

In our polity that is the authority! We channel that authority through our representatives based on principles established in the Declaration of Independence and effected through our national Charter, The Constitution!

One of the restrictions on government is that the right to bear arms shall not be infringed! That is not a guideline or suggestion. Every restriction infringing constitutes sedition against the people! Do not infringe. Thank you for listening and for serving as representatives of the people.
