Subject: "NO" on SB 716

Ms. Reiley,

Can you please get this into the folders of the committee members?

Dear Chair Edwards and members of the Committee:

I urge a "No" vote on SB 716. I have determined that this bill would allow a needless and destructive land grab. Every legislative session, developers get bills introduced that skirt our cherished land use laws.

There is simply no good reason to pass this as more than enough industrial land is available inside UGB's. If "economic development" is being used as an excuse to pass this, it is a weak and disingenuous argument.

Thank you for your consideration.
