Subject: Testimony SB 716: 3 pm Monday April 6.

Ms. Reiley

Please include this testimony.

Day: Monday, April 6, 2015
Time: 3:00 pm
Where: Room HR C, Capitol Building, Salem
What: SB 716 Hearing, Senate Committee Environmental
and Natural Resources

Dear Committee Members,
Why does SB 716 exist?

The problem isn't a lack of industrial land in the Metro region.

Nothing has been done with the 880 acres Washington County brought into the UGB in 2011 and 2014.

Hillsboro can't fund development of 1,400 acres South Hillsboro.

An additional 543 acres in Cooper Mountain are idle.

An additional, additional 678 in urban reserves North of US-26 will be available soon.

The problem is finding the money to adequately plan for transportation and infrastructure for 3500 acres already set aside in Washington County.

Please drop SB 716 and support measures that address infrastructure funding.

Sincerely,

Richard Reid
