

Subject: SB819 and 820

Please support senate bills 819 and 820 to give my kids' charter school the school funding it deserves. These schools really struggle to provide the environment that would enable even greater success. We regularly outperform PPS schools with much less funding. The dedication of the teachers and administrator at our little charter school is truly something to marvel at. Please show your support in pushing for funding equality. I eagerly anticipate hearing how you will vote on these bills.
