

The Association of Oregon Counties Support HB 2447 and HB 2448

The Association of Oregon Counties (AOC) support extending the sunsets on the Residential Energy Tax Credit and Energy Incentive Programs. AOC supports the provisions in HB 2447 to cap the tax credit incentives for category one alternative energy devices at 50%, provide rulemaking authority and allows the Oregon Department of Energy (ODOE) more flexibility in offering incentives. AOC also supports all the provisions spelled out in HB 2448. AOC agrees that ODOE should have the ability to require recertification of eligibility for the tax credits and that they have the authority to require project owners to enter into performance agreements.

AOC believes that these are two worthy tax credit programs and urges your support for HB 2447 and HB 2448.
