**Subject: Support for SB819!**

Dear RepresentativeFrederick,

I live in your district and my children attend Trillium Charter School. It has come to my attention that public charter schools in Oregon are funded at a substantially lower rate than other Portland Public Schools. Every child's education is important wether they are at a public charter or neighborhood school. Not having enough funding makes it harder to get the children the services they need and pay teachers appropriately. I greatly value that education and experience that my children are getting at Trillium!  
It shouldn't be be a financial struggle to keep the school going. Please support SB819!

Thank you!  
Autumn Voirol
